Forecast for Monday 26 Oct 2020

Weather: Ranges south of An Teallach will often be cloudy with showers or perhaps some longer spells of rain, especially in the morning. Some hail possible. Some brightness will develop at times this most favoured towards the Great Glen. Elsewhere sunny periods and a few more showers, this most likely in the afternoon.

Chance of cloud free mountain/hill tops above 800m: 50%. Ranges across the west and south seeing cloud between 600 and 800 metres, this persisting in spells of rain. Only small amounts of cloud around 700 metres elsewhere.

Visibility: Very good outside of cloud and rain.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Significant wind chill expected at height. Risk of gales developing in the afternoon and evening along the west coast.

Forecast for Tuesday 27 Oct 2020
Weather: The morning will be dry and bright. Thickening cloud will bring rain to the southwest of the area by mid-afternoon, and remaining ranges soon after sunset. The northeast should see a good deal of dry weather for much of daylight hours. Drier weather following in the evening. Rain may turn to wet snow for a short while as it clears away.

Maximum wind: Southeasterly 20 mph

Chance of cloud free mountain/hill tops above 800m: 70%. Cloud lowering to 500 to 700 metres once the rain arrives in the afternoon, but little in the way of low cloud expected until then. Northeast ranges fairing best.

Visibility: Very good outside of cloud and rain.

Temperature: **Glens:** Minus 1 rising to 9 Celsius
At 800m: Plus 4 Celsius
Freezing level: 1200 metres, rising above summits for a short time in the rain.
